Price List Winter 2022/2023

Below is a description of the carp that we produce here at VS Fisheries Ltd. Our harvest / delivery season generally starts in late October and finishes in early March, whilst water temperatures are at their lowest. Please contact us in advance of our harvest with any enquiry regarding our fish, their current availability and for supply quotes as demand for our fish is high.

1-Summer Carp (C1)

These fish are generally 3-5" and are priced per fish. Minimum order of 10 fish and individual fish price depends on the number ordered as detailed below;

10 to 30	50-100	100 - 500	500 - 1000	1000+
£2.40	£1.30	85p	75p	55p

2-Summer Carp (C2)

£5.10 per lb (£11.22 per kg)

These fish are generally between 1 to 2.5lb at harvest and are ideal for on-growing or introduction into pleasure fisheries.

3-Summer Carp (C3)

£7.00 per lb (£15.40 per kg)

These hand selected fish range from 4.5 to 7.5 lbs in weight and at harvest will be 2.5 years old. In rich lightly-stocked waters we would expect these fish to be nearing double figures a full year after introduction.

4-Summer Carp (C4)

£11.80 per lb (£25.96 per kg)

These 4-summer carp are one of our most popular age classes. At harvest we expect these hand selected fish range between 9 to 12.5 lbs and are 3.5 years old. From our experience these fish are the ideal size for introduction into established specimen carp fisheries that are looking for their big fish of the future.

5-Summer Carp (C5)

£16.10 per lb (£35.42 per kg)

These 5-summer fish are 4.5 years old and range between 14 to 18 lbs at harvest. In the right waters we would expect these fish to be close to 20 lbs or above within a year of introduction. This year class are ideal for someone looking to introduce a select number of fish to an established lake.

6-Summer Carp (C6)

£26.90 per lb (£59.18 per kg)

These fish are truly the cream of the crop of VS Fisheries carp as they have been hand selected over the previous 5 years. Annually we produce a number of these fish which will be between 20 to 24lbs at harvest. Six summer fish are great for new fisheries that require larger target fish initially or for established waters that need an introduction of specimen sized fish for the future.

7-Summer Carp (C7)

26-29.5lbs **£41.40 per lb** (£91.08 per kg)

30lbs+ **£2250 each**

Every year we select a limited number of six summer carp to on-grow for another year. These fish will be between 26 to 32lbs. Reservation of these fish AT LEAST 18 months before delivery is suggested.

These prices apply to all orders of £1000 or more of FISH VALUE (exc delivery, admin fee and VAT) on our C2 – C7 year classes. For orders below this please add 20%. All prices above exclude stocking admin fee (£10.00 per site), delivery charges and VAT at 20%.

Prices applicable to all fish delivered up to the 31st March 2023.
